

Walk behind machine without traction

Battery autonomy

Operating tension
230 V, 50 Hz

Cleaning width
485 mm

Solution tank / recovery tank
45 / 45 l

Disc brushes
1 x 485 mm

Brushes pressure adjustable
35 kg

Brushes speed
180 rpm

Theoretical working capacity

1700 m²/h

Technical data

Squeegee width	770 mm
Brushes motor	750 Watt
Type of drive	semi-automatic
Maximum gradient	2%
Suction motor	450 Watt
Suction vacuum	110 mbar
Machine dimensions	
length	1110 mm
height	1020 mm
width without squeegee	545 mm
Machine weight	70 kg
Class	I
Protection level	IP 23
Noise level	<70 dB (A)

Version with one single brush and 48,5 cm cleaning path.

It is possible to adjust the brush inclination in order to help the semi-automatic traction.

The single brush system is equipped with the device of the brush coupling/uncoupling release without manual intervention and it is particularly suitable for small areas such as hospitals, schools, where a frequent sanitization of the brush is essential. It is furthermore indicated for those areas which are obstacle-free and where the presence of the electric cable does not represent difficulties during the cleaning operation.

ruby models result to be extremely silenced thanks to the patented housing system of the suction motor.
